ORM / ODM: Prisma, Mongoose

DevOps and Deployment: Docker, CI/CD (GitHub Actions, GitLab CI), Nginx

WORK EXPERIENCE

Backend Developer

SM Technology, Betopia, Dhaka

Sept 2024 - Oct 2025

- Backend Developer at SM Technology, working closely with both the app and web teams to build and maintain scalable, high-performance APIs and backend systems. I focus on developing robust server-side logic, database architecture, and seamless integrations to support mobile and web applications.

Backend Developer

Solutiya Pvt Ltd, Dhaka

Internship

Jun 2024 - Sept 2024

- Solutiya is a technology solutions company specializing in software development and digital transformation. During my internship, I gained hands-on experience in real-world projects, collaborating with developers to build scalable web applications and enhance backend functionalities.

PROJECTS

- CraveIt**, A TypeScript-based Node.js backend with Express, Prisma, MongoDB, real-time WebSocket support, cloud storage, authentication, and Stripe payments. [GitHub](#)
- Salon-service**, A TypeScript-powered Node.js backend for a salon service app with Express, Prisma, MongoDB, real-time features, cloud storage, authentication, and Stripe payment integration. [GitHub](#)
